

C O P Y

SPECIAL ORDER.

June 26, 1902.

SPECIAL ORDER.

There is hereby created and established, in the Office of Experiment Stations of the United States Department of Agriculture, the following Divisions, namely: Editorial Division; and Division of Insular Stations. This order shall take effect and be in force from and after July 1, 1902.

JAMES WILSON,

Secretary of Agriculture.

COPY.

August 27, 1902.

SPECIAL ORDER.

A Division, in the Bureau of Forestry, is hereby created and established, to be designated and known as the Division of Forest Products; and it is hereby ordered that the same take effect on September 1, 1902.

JAMES WILSON,

Secretary of Agriculture.

James Wilson

Secretary of Agriculture

Department of Agriculture,
Office of the Secretary,
Washington, D.C.

MARCH 18, 1903.

SPECIAL ORDER.

It is hereby ordered that all watchmen employed in watching and guarding the gardens and grounds of the United States Department of Agriculture report for duty in person to, and receive their instructions from, the Chief of the Bureau of Plant Industry.

James Wilson

Secretary of Agriculture.

Department of Agriculture
Bureau of Plant Industry
Washington, D. C.

March 10, 1912

Dear Sir:

It is hereby ordered that all persons engaged in the
production and distribution of the following named
articles, and who are engaged in the production and
distribution of the same, shall be subject to the
provisions of the Act of March 4, 1907, entitled
"An Act to regulate commerce with foreign countries,
and for other purposes."

Sincerely,
Director

James Wilson

Director of Plant Industry

Department of Agriculture,
Office of the Secretary,
Washington.

May 14, 1903.

SPECIAL ORDER.

It is hereby ordered that Doctor Beverly T. Galloway, Chief of the Bureau of Plant Industry, Doctor Daniel E. Salmon, Chief of the Bureau of Animal Industry, and Doctor Alfred C. True, Director of the Office of Experiments Stations, all in the Department of Agriculture, be and they are, in addition to their regular official duties, hereby constituted a committee to be designated and known as the Building Committee and be subject to the orders of the Secretary of Agriculture, to direct and supervise the erection of a building for the use and accommodation of the Department of Agriculture according to "An Act For the erection of a building for the use and accommodation of the Department of Agriculture," approved February 9, 1903. Doctor Beverly T. Galloway before mentioned is hereby appointed chairman of the said committee.

(Signed) James Wilson

Secretary of Agriculture.

United States Department of Agriculture,
Office of the Secretary,
Washington, D. C.

JUNE 23, 1903.

SPECIAL ORDER.

It is hereby ordered, That there be, and there is hereby, established in the Bureau of Chemistry of the U. S. Department of Agriculture a laboratory to be known as the Contracts Laboratory, in which shall be examined materials to be purchased by the U. S. Department of Agriculture, to determine their purity and compliance with specifications, and to do the collaborative work provided by law for other departments which may request such assistance from the Secretary of Agriculture.

SPECIAL ORDER.

There is hereby established in the Bureau of Chemistry a laboratory to be known as the Leather and Paper Laboratory to which are to be committed the analyses and investigations relating to the following subjects:

Investigations of tannins and tanning materials and their effects upon the strength and properties of leather with a view to promoting the agricultural industries relating to the production of tannins and tanning materials and leather of a high quality.

All technical problems of a chemical nature relating to the production of tannins and tanning products and of leathers.

All technical problems of a chemical nature relating to the production of leather.

All chemical and physical investigations of papers in regard to their fitness for use in the Department of Agriculture and other Departments of the Government which may request such investigations.

All technical problems of a chemical nature relating to the production of paper with a view to promoting the agricultural industries connected with the production of the raw materials and to the improvement of the quality of papers made.

July 1, 1905.

SPECIAL ORDER.

The name of the Insecticide and Agricultural Water Laboratory of the Bureau of Chemistry is hereby changed to the Miscellaneous Laboratory.

The principal lines of work of this laboratory shall be, as heretofore, upon insecticides, waters, and cattle foods, with the addition of such other chemical work of the Bureau of Chemistry and other bureaus and divisions of the various departments of the Government as does not properly belong to any of the other laboratories already established.

The work on insecticides shall include studies of the composition and methods of analysis of this class of compounds, together with such collaborative work with the Bureau of Entomology as may appear mutually profitable.

The work on waters shall include studies in collaboration with the Office of Experiment Stations, of irrigation waters, and of sanitary and mineral waters, and shall be especially directed toward a study of the mineral waters sold upon the American market. It shall not include analyses of waters for corporations, firms, or private parties, nor for any commercial purpose.

The work on cattle foods shall include any studies relating to their composition, nutritive value, adulteration, and analysis.

The miscellaneous work shall include investigations of an official and public nature which may be properly made by the bureau.

OF THE UNIVERSITY OF CHICAGO
FROM
THE DEPARTMENT OF CHEMISTRY
LABORATORY OF ORGANIC CHEMISTRY
CHICAGO, ILLINOIS
JANUARY 1, 1900

[Handwritten signature]
JAN 1 1900

Department of Agriculture,
Office of the Secretary,
Washington.

May 24, 1906.

SPECIAL ORDER:

On June 21, 1895, the Secretary of Agriculture issued an order requiring each inspector, assistant inspector, live stock agent, stock examiner, and tagger to wear a badge while engaged in the performance of official duties, the badge to be furnished by the Chief of the Bureau of Animal Industry, and each employee was required to deposit the sum of \$2.00 with the Disbursing Clerk of the Department, who was made custodian of the guarantee fund. On October 12, 1905, the Secretary of Agriculture issued an order modifying the order of June 21, 1895, so far as related to these deposits and directing that the money be refunded. The amount received, up to that date, October 12, 1905, by Mr. F. L. Evans, Disbursing Clerk, of the Department, was \$2,164.00, and during the period from that date to May 24, 1906, the sum of \$1,944.00 was returned to the various depositors by him, leaving in the guarantee fund a balance of \$220.00. The transfer of this balance \$220.00, to his successor, Mr. A. Zappone, Disbursing Clerk of the Department, is hereby ordered and will be refunded by him to the depositors as soon as practicable. If the money is not claimed by them within a reasonable time the amount will be deposited in the Treasury to the credit of miscellaneous receipts.

August 4, 1908.

SPECIAL ORDER.

It is hereby ordered, That the Special Order dated July 14, 1908, which ordered "that the title of 'the Division of Foreign Markets' of the Bureau of Statistics, in the U. S. Department of Agriculture, be and is hereby changed to 'the Division of Research', which Division will continue the work of the late Division of Foreign Markets and be much broader in its scope, and be directed toward a greater variety of subjects" IS HEREBY REVOKED. This order shall take effect on July 14, 1908.

(Signed) W. L. Moore,

Acting Secretary of Agriculture.

United States Department of Agriculture,
Office of the Chief Clerk,
Washington, D. C.

AUGUST 10, 1908.

SPECIAL ORDER.

The following Executive Order is hereby promulgated for the information of the Chiefs of Bureaus, Divisions, and Offices of this Department:

"A National Conservation Commission to consider and advise the President upon the condition and needs of the natural resources of the country has been appointed by the President. The heads of the Executive Departments, Bureaus, and other Government establishments are hereby instructed to secure, compile, and furnish to the said Commission all such information and data relevant to its work as the Commission may from time to time request, and as may be respectively within the lawful powers of such Departments, Bureaus, and Government establishments to secure, compile, or furnish, and not inconsistent with express provisions of law.

Office of the Secretary,
Washington, D. C.

DECEMBER 8, 1908.

SPECIAL ORDER.

TO BUREAUS, DIVISIONS, AND OFFICES:

Inasmuch as there seems to be some misunderstanding in regard to the method of distributing the Department publications, I wish to remind the Chiefs of Bureaus, Divisions, and Offices that the Division of Publications is charged with the mailing of all publications, the Chief of that Division having been designated to have supervision of such distribution under the provisions of section 92 of the law of January 12, 1895, and that he is required to report thereon. Consequently, when the Chiefs of Bureaus desire publications mailed out they must send orders therefor, leaving the actual mailing to be done in the Document Section of the Division of Publications; and no mailing shall be done by the Bureaus, Divisions, and Offices. The only exception to the above is when it is desired to send a marked copy referred to in a letter or to hand a copy to a visitor. The Division of Publications is provided with a force to do such work, and all orders will be promptly filled, and in cases where the mailing involves an exceptionally large number of copies, beyond the ability of the Division of Publications to handle unaided, the manner of distribution must be the subject of special agreement between the Bureau or Office making the request and the Division of Publications.

It is evident that an accurate record of the distribution of the Department publications can not be kept and a report made thereof and duplication prevented, as required by the law, unless the distribution is centralized in one office, which is the Division of Publications.

Respectfully,

James Wilson

Secretary of Agriculture.

Washington, D. C.

APRIL 19, 1909.

SPECIAL ORDER.

I. Beginning July 1st proximo, a quarterly audit of the books, records, and other property in the custody of the Chief of the Supply Division of the Department will be made by the Chief of the Division of Accounts and Disbursements in connection with his inspection of the Supply Division as administrative officer of the fiscal affairs of the Department.

II. Beginning July 1, 1909, the Division of Accounts and Disbursements will be promptly notified of all transfers of Government property from the several Bureaus, Offices, and independent Divisions to the Supply Division of the Department. In lieu of the form at present prepared in duplicate and forwarded to the Supply Division, a new form, in triplicate, will be supplied by the Chief of the Supply Division for use in all cases where property is so transferred. The appropriate section of the new form will be detached by the Bureau preparing the same and forwarded direct to the Division of Accounts and Disbursements; the other two sections will be sent to the Chief of the Supply Division, who will retain one and return the other, properly receipted, to the Bureau.

James Wilson

Secretary of Agriculture.

UNITED STATES DEPARTMENT OF AGRICULTURE
BUREAU OF PLANT INDUSTRY
WASHINGTON, D. C.

It is the policy of the Department of Agriculture to encourage the production of native plants and animals, and to protect the same from the depredations of foreign insects and diseases. To this end, the Bureau of Plant Industry has been organized, and its functions are to investigate the causes of plant diseases and insect pests, and to disseminate the results of its investigations to the farmers and planters of the United States.

The Bureau of Plant Industry is organized into three divisions: the Division of Plant Pathology, the Division of Entomology, and the Division of Plant Quarantine. The Division of Plant Pathology is concerned with the study of plant diseases, and the Division of Entomology is concerned with the study of insect pests. The Division of Plant Quarantine is concerned with the prevention of the introduction of foreign insects and diseases into the United States.

The Bureau of Plant Industry is a part of the United States Department of Agriculture, and its functions are to investigate the causes of plant diseases and insect pests, and to disseminate the results of its investigations to the farmers and planters of the United States.

James H. Miller

237

DEPARTMENT OF AGRICULTURE
OFFICE OF THE SECRETARY
WASHINGTON, D. C.

JUNE 7, 1909.

SPECIAL ORDER.

The attention of officers and employees of the Department is directed to the memorandum opinion of the Solicitor published herewith on the provisions of Section 9 of the Sundry Civil Act approved March 4, 1909, and the authority vested in the Secretary of Agriculture to authorize payment of salary and expenses to officers and employees of the Department for attendance upon the meetings of scientific societies.

The opinion of the Solicitor is approved and is to be followed by all officers in requesting authorization for such attendance.

James Wilson

Secretary of Agriculture.

OPINION OF THE SOLICITOR.

JUNE 4, 1909.

MEMORANDUM FOR THE SECRETARY:

The attached memorandum from Doctor Bigelow raises the following question: May certain scientific employees of the Department who are members of the American Chemical Society be paid both salary and expenses, or either, for attending the meeting of the American Chemical Society in Detroit this month?

You direct me to consider this question in connection with Section 9 of the Sundry Civil Act approved March 4, 1909 (Public No. 328). Section 9 reads as follows:

That hereafter no part of the public moneys, or of any appropriation heretofore or hereafter made by Congress, shall be used for the payment of compensation or expenses of any commission, council, board, or other similar body, or any members thereof, or for expenses in connection with any work or the results of any work or action of any commission, council, board, or other similar body, unless the creation of the same shall be or shall have been authorized by law; nor shall there be employed by detail, hereafter or heretofore made, or otherwise personal services from any executive department or other Government establishment in connection with any such commission, council, board, or other similar body.

The effect of Section 9 is, first, to prohibit the payment of any official moneys—

(a) As compensation or expenses of any commission, council, board, or other similar body unless the creation of the same shall be or shall have been authorized by law;

(b) As compensation or expenses of any member of any commission, council, board, or other similar body unless the creation of the same shall be or shall have been authorized by law;

(c) As expenses in connection with any work or the results of any work or action of any commission, council, board, or other similar body unless the creation of the same shall be or shall have been authorized by law;

Second, to prohibit the employment by detail or otherwise of personal services from any executive department or other Government establishment in connection with any commission, council, board, or other similar body unless the creation of the same shall be or shall have been authorized by law.

It is a matter of common knowledge, attested by the debates in Congress, and by the written comment

239

DEPARTMENT OF AGRICULTURE
OFFICE OF THE SECRETARY
WASHINGTON, D. C.

JUNE 10, 1909.

SPECIAL ORDER.

The following Executive Order is hereby promulgated for the information of all concerned in this Department:

EXECUTIVE ORDER.

It is hereby ordered that on Saturdays during July, August and September, until further notice, four hours exclusive of time for luncheon shall constitute a day's work for all employees in the Federal public service, wherever employed; and all departmental or other orders in conflict with this order are hereby revoked, except as to the naval stations named in the executive order of April 4, 1908.

WM. H. TAFT.

THE WHITE HOUSE, *June 8, 1909.*

Pursuant to this order, the hours of service in the Department of Agriculture on Saturdays during the months of July, August and September will be from 9 a. m. to 1 p. m., without intermission for luncheon.

Persons on leave of absence during July, August or September will be charged with the actual time absent on Saturdays, not exceeding four hours for any one Saturday.

All employees whose hours of service exceed seven will be charged with one-half day's leave, when absent on Saturdays during July, August or September.

W. M. HAYS,
Acting Secretary.

Attest:

FRANK G. KELSEY,
Acting Chief Clerk.

DEPARTMENT OF AGRICULTURE
OFFICE OF THE SECRETARY
WASHINGTON, D. C.

of the Executive before approving the bill in which Section 9 is found, that the intent of Congress was to strike at commissions, etc., appointed by Federal Executive authority, without warrant of law, and to my mind the application of Section 9, as a matter of law, is so restricted. This view is supported by the opinion of Attorney-General Wickersham, who says: "The commissions or boards referred to in Section 9 of the act of March 4, 1909, are commissions or boards constituted without authority of law" (Op. Atty. Gen., April 14, 1909, F. I. D. No. 107).

The American Chemical Society is an organization of chemists throughout the United States. It does not pretend to have any official status and no effort has ever been made to employ the Society as a governmental agency, or to divert official moneys or personal service of employees of the Government in support of the work of the Society. For this reason I am of opinion that Section 9 has no application to that Society, or to the question presented by Doctor Bigelow.

It does not follow by any means that, under all circumstances, you are authorized to pay the salaries and expenses of employees of this Department while they are attending the meetings of the American Chemical Society. If they attend such meetings by your direction in order, while there, to render service to the Department, the payment of their salaries, and the payment of their expenses from an available appropriation, are clearly warranted. If, however, such employees attend the meeting, merely with your permission, and as members or officers of the Society, for the purposes of the Society, and not for the purpose of rendering service to the Department, then it is equally clear that you are no more warranted in paying such salaries and expenses of such employees than you would be warranted in paying them salaries and expenses for attending a meeting of the stockholders or directors of some mercantile corporation in which they may be interested, and this, although the meeting of the American Chemical Society may be of public interest and productive of information along lines in which the Department of Agriculture is working.

Applying the foregoing principles to the concrete case submitted, it follows that if Doctors Bigelow and Cameron and the others mentioned are to attend the meeting of the American Chemical Society, there to perform services for the Department along the lines of their employment, you are authorized, in your discretion, to pay them both salaries and expenses, or either. If, however, Doctors Bigelow and Cameron, who are officers of the Society, are to attend the meeting as officers of the Society, to do the work of the Society, they are not entitled to the payment of their expenses and are only entitled to salaries for the time consumed by such attendance, in the event that you grant them annual leave with pay for the time involved.

Very respectfully,

GEO. P. McCABE,
Solicitor.

242

DEPARTMENT OF AGRICULTURE
OFFICE OF THE SECRETARY
WASHINGTON, D. C.

JULY 9, 1909.

SPECIAL ORDER.

TO THE CHIEFS OF BUREAUS, DIVISIONS, AND OFFICES:

As the General Supply Committee has prepared contracts for miscellaneous supplies for the Executive Departments, and this Department has supplemented such action by preparing separate contracts for all technical supplies required, it is hereby ordered that in the purchase of supplies for this Department items enumerated in these contracts be selected and used whenever practicable. The law requires competition in the purchase of supplies, and because an article which is personally preferred by an employee differs slightly from articles of the same class under contract is not a sufficient reason why a purchase should not be made under contract rather than in open market. Open market purchases should be made only when necessary to prevent the work of the Department from being crippled or for the purpose of continuing systems of book cases, filing cases, or other furniture already installed in an office.

With the view of securing the greatest possible economy in all expenditures, in compliance with the express order of the President, no furniture or apparatus should be purchased except such as may be absolutely necessary to replace unserviceable articles of similar character or to equip new offices.

James Wilson

Secretary.

(COPY)

SPECIAL ORDER.

January 21, 1910.

It is hereby ordered that the designation of the Animal Husbandry Office of the Bureau of Animal Industry, be, and is hereby, changed to and designated the Animal Husbandry Division of the Bureau of Animal Industry.

This order shall take effect on January 1, 1910.

(Signed) James Wilson,

Secretary of Agriculture.

December 30, 1909

(COPY)

January 31, 1910.

SPECIAL ORDER.

There is hereby established in the Branch of Operation, of the Forest Service, the Office of Records, to carry on the appointment records and the records of absences and other administrative work now handled in the Office of Accounts, in the Forest Service, not essential to the auditing and settlement of accounts and disbursements in the Forest Service.

This order shall take effect on February 1, 1910.

October 14, 1910.

SPECIAL ORDER.

TO THE CHIEFS OF BUREAUS, OFFICES, AND INDEPENDENT DIVISIONS.

In order that no milk containing extraneous matter, raw milk from cows not known to be free of tuberculosis, or milk of unknown origin may be sold within certain buildings occupied by the Department of Agriculture in Washington, D. C., it is hereby ordered that no milk shall be sold within any building occupied by the Department of Agriculture which is not equal to the classification as defined in Bureau of Animal Industry Circular 114.

The determinations as to the standards of such milk shall be made by the Dairy Division, Bureau of Animal Industry.

Officers of the various bureaus and divisions in which milk is used will see that this order is enforced.

Effective October 25, 1910.

James Wilson

Secretary of Agriculture.

Attest:

[Signature]

Chief Clerk.

(Over.)

TRANSCRIPT FROM BUREAU OF ANIMAL INDUSTRY CIRCULAR 114, RELATING TO CLASSIFICATION OF MILK.

CLASSIFICATION OF MILK.

In order that the milk supply of the District may be pure, it must come from healthy cows, properly fed, that are neither about to calve nor have recently calved. The milk from these cows must be drawn in a cleanly manner and be promptly cooled. All persons engaged in handling milk must be free from communicable diseases and of cleanly habits. All receptacles into which the milk passes and all utensils and apparatus used in handling it must be perfectly clean, and the milk after having been promptly cooled must be kept cool until delivered to the consumer. Actually to attain ideal conditions with respect to milk is difficult and expensive, and adds materially to the cost of the milk, and therefore to the selling price. But to undertake earnestly to approximate such conditions is less difficult and less expensive, and for practical purposes may be regarded as yielding a reasonably satisfactory and reasonably safe milk.

The conference recommends that there be recognized by law three grades of milk, as follows:

Class 1. Certified milk.—The use of this term should be limited to milk produced at dairies subjected to periodic inspection and the products of which are subjected to frequent analyses. The cows producing such milk must be properly fed and watered, free from tuberculosis, as shown by the tuberculin test, and from all other communicable diseases, and from all diseases and conditions whatsoever likely to deteriorate the milk. They are to be housed in clean stables, properly ventilated, and to be kept clean. All those who come in contact with the milk must exercise scrupulous cleanliness, and such persons must not harbor the germs of typhoid fever, tuberculosis, diphtheria, and other infections liable to be conveyed by the milk. Milk must be drawn under all precautions necessary to avoid infection, and be immediately strained and cooled, packed in sterilized bottles, and kept at a temperature not exceeding 50° F. until delivered to the consumer. Pure water, as determined by chemical and bacteriological examination, is to be provided for use throughout the dairy farm and dairy. Certified milk should not contain more than 10,000 bacteria per cubic centimeter, and should not be more than 12 hours old when delivered. Such milk shall be certified by the health officer of the District of Columbia.

Class 2. Inspected milk.—This term should be limited to clean raw milk from healthy cows, as determined by the tuberculin test and physical examination by a qualified veterinary surgeon. The cows are to be fed, watered, housed, and milked under good conditions, but not necessarily equal to the conditions provided for class 1. All those who come in contact with the milk must exercise scrupulous cleanliness, and such persons must not harbor the germs of typhoid fever, tuberculosis, diphtheria, and other infections liable to be conveyed by the milk. This milk is to be delivered in sterilized containers, and is to be kept at a temperature not exceeding 50° F. until it reaches the consumer. It shall contain not more than 100,000 bacteria per cubic centimeter.

Class 3. Pasteurized milk.—Milk from the dairies not able to comply with the requirements specified for the production of milk of classes 1 and 2 is to be pasteurized before being sold, and must be sold under the designation "pasteurized milk." Milk for pasteurization shall be kept at all times at a temperature not exceeding 60° F. while in transit from the dairy farm to the pasteurization plant, and milk after pasteurization shall be placed in sterilized containers and delivered to the consumer at a temperature not exceeding 50° F. All milk of an unknown origin shall be placed in class 3 and subjected to clarification and pasteurization. No cow in any way unfit for the production of milk for use by man, as determined upon physical examination by an authorized veterinarian, and no cow suffering from a communicable disease, except as specified below, shall be permitted to remain on any dairy farm on which milk of class 3 is produced, except that cows which upon physical examination do not show physical signs of tuberculosis may be included in dairy herds supplying milk of this class, although they may have reacted to the tuberculin test.

This milk is to be clarified and pasteurized at central pasteurization plants, which shall be under the personal supervision of an officer or officers of the health department. These pasteurizing plants may be provided either by private enterprise or by the District Government, and shall be located within the city of Washington.

By the term "pasteurization," as used herein, is meant the heating of milk to a temperature of 150° F. or 65° C. for 20 minutes, or 160° F. or 70° C. for 10 minutes, as soon as practicable after milking, in inclosed vessels, preferably the final containers, and after such heating immediate cooling to a temperature not exceeding 50° F. or 10° C.

No milk shall be regarded as pure and wholesome which, after standing for two hours or less, reveals a visible sediment at the bottom of the bottle.

No dairy farm shall be permitted to supply milk of a higher class than the class for which its permit has been issued, and each dairy farm supplying milk of a specified class shall be separate and distinct from any dairy farm of a different class; the same owner, however, may supply different classes of milk, providing the dairy farms are separate and distinct, as above indicated.

All employees are directed to use every precaution in guarding against the possibility of fire in the Department buildings; and to use particular care in preventing the accumulation of waste paper and all inflammable materials and supplies which may cause fire.

By order of the Secretary:

Chief Clerk.

SPECIAL ORDER.

August 1, 1911.

TO THE CHIEFS OF BUREAUS, OFFICES, AND DIVISIONS:

Referring to the report of the Committee on Efficiency and Economy, approved June 21, 1911, (Appointments, Sec. 8, page 14) in which recommendation is made that all appointments, except those to statutory positions, be made to read "payable from the lump appropriation (of the particular bureau) to which the salary is properly chargeable," IT IS HEREBY ORDERED that all appointments which have heretofore been payable from any lump fund appropriation of the Bureau, Office, or Division to which the salary is properly chargeable, and that all future recommendations for appointments, payable from lump fund appropriations, be prepared accordingly. All per diem appointments will hereafter be made for days actually employed.

SPECIAL ORDER:

TO THE CHIEFS OF BUREAUS, OFFICES, AND DIVISIONS:

Your attention is respectfully invited to the enclosed copy of memorandum of the Secretary, dated December 6, 1911, designating the members of the Board of Survey of the Department, and outlining instructions to that Board concerning the disposition of unserviceable Government property during the fiscal year ending June 30, 1912.

In order to facilitate the handling and appraising of this material, it is requested that all unserviceable property be turned in for disposal on the 15th day of each calendar month.

In turning in unserviceable property for action by the Board of Survey, it is directed that the price of each article, as carried on the books of the Bureau, be set forth on the copies of the invoice, as far as practicable. If articles "turned in" are incomplete, or have parts missing, it should be so stated, and the present condition and missing parts described.

In the case of scientific or technical instruments, or special equipment, the original cost price, as well as the present approximate value should be shown, together with a statement or memorandum setting forth the reason for discarding the same.

When preparing invoices, in triplicate, to cover the disposal of unserviceable property, it is requested that the first or original sheet be sent direct to the Division of Accounts and Disbursements, in accordance with the instructions contained in the statement at the top of this sheet, viz: "DETACH AND SEND TO THE DIVISION OF ACCOUNTS AND DISBURSEMENTS". The two remaining sheets of this invoice should be promptly forwarded to the Chief of the Supply Division.

James Wilson
Secretary.

SPECIAL ORDER.

AUTHORIZING DISPOSITION OF INSPECTION RECORDS IN
BUREAU OF ANIMAL INDUSTRY.

In accordance with the provisions of the Act of March 4, 1907, (34 Stat., 1281), it is hereby ordered that the following inspection records, after the dates specified for each form, belonging to the Bureau of Animal Industry, which do not constitute permanent records, and which are obsolete and worthless, be disposed of or destroyed:

I. D. Form 101	Daily Time Report rendered on 1st and 3rd Wednesdays of each month.	2 Years.
I. D. Form 130	Daily report from the stations of Inspections, Preparation of meat food products, Tanking and receipts and shipments of meats.	1 1/2 Years.
I. D. Form 112		
I. D. Form 112 B	Report of disposition of suspect and	
I. D. Form 112 D	retained carcasses.	3 Years.
I. D. Form 112 F		
I. D. Form 109 F	Shipments of unmarked meat in sealed cars.	1 Year.
I. D. Form 148	Inspection of meats for U.S. Navy.	1 Year.
I. D. Form 113	Condemnations of meats on reinspection.	1 Year.
I. D. Form 116	Export shipments of Regular, Preserva-	
I. D. Form 121	tive and Inedible meats and meat food	
I. D. Form 112	products.	1 Year.
Reports of shipments of uninspected meats and meat food products, by farmers, and by retail dealers and butchers under numbered exemption certificate.		1 Year.

April 8, 1912.

SPECIAL ORDER.

AUTHORIZING DISPOSITION OF INSPECTION RECORDS IN
BUREAU OF ANIMAL INDUSTRY.

In accordance with the provisions of the Act of March 4, 1907,
(34 Stat., 1281), it is hereby ordered that the following inspection
records, after the dates specified for each form, belonging to the
Bureau of Animal Industry, which do not constitute permanent records,
and which are obsolete and worthless, be disposed of or destroyed:

I. D. Form 101 Daily Time Report rendered on fat and 2nd
Wednesdays of each month. 2 Years.

I. D. Form 120 Daily report from the stations of inspec-
tions, Preparation of meat food products,
Tanking and receipts and shipments of
meats. 1 1/2 Years.

I. D. Form 112 Report of disposition of suspect and
I. D. Form 112 B retained carcasses. 3 Years.
I. D. Form 112 D
I. D. Form 112 V

I. D. Form 109 B Shipments of unmarked meat in sealed
cars. 1 Year.

I. D. Form 148 Inspection of meats for U.S. Navy. 1 Year.

I. D. Form 113 Condemnations of meats on reinspection. 1 Year.

I. D. Form 118 Export shipments of Regular, Preserva-
I. D. Form 121 tive and inedible meats and meat food
I. D. Form 112 products. 1 Year.

Reports of shipments of uninspected meats and meat
food products, by farmers, and by retail dealers
and butchers under numbered exemption certificate. 1 Year.

(2)

The above mentioned reports are in the Inspection Division of the Bureau of Animal Industry, and the Chief of that Bureau is hereby given permission to authorize the disposition or destruction of the above mentioned inspection reports.

(PURCHASE OF MEDICINES BY EMPLOYEES IN TROPICS)

SPECIAL ORDER.

It is hereby ordered that employees of the Department of Agriculture traveling or stationed in Porto Rico, Hawaii, Guam, or elsewhere in the Tropics may be reimbursed from the proper appropriations for medicines which may be needed in emergencies for the treatment or prevention of diseases to which they are exposed by reason of their employment in the Tropics. This order applies only to those employees whose compensation is not fixed by law; i.e., employees not paid on the so-called statutory rolls. See Decisions of the Comptroller dated July 15, 1905 (XII, 27-28), and July 27, 1905 (Ms.).

Such purchases of medicines will be considered as included in and covered by the letters of authorization issued in connection with assignments in the Tropics.

The foregoing order will supersede all orders of a similar character heretofore issued.

James Wilson
Secretary.

DEPARTMENT OF AGRICULTURE
OFFICE OF THE SECRETARY
WASHINGTON

July 10, 1902.

(PURCHASE OF MEDICINE BY MAILING IN TROPICS)

SIR:

It is hereby ordered that supplies of the Department of Agriculture traveling or stationed in Porto Rico, Hawaii, Cuba, or elsewhere in the tropics may be reimbursed from the proper appropriations for medicines which may be needed in emergencies for the treatment or prevention of diseases in which they are exposed by reason of their assignment in the tropics. This order applies only to those supplies which are requisitioned as such by the Department of Agriculture and not on the so-called "very small" quantities of medicine which are requisitioned for the use of the traveling or stationed in the tropics. (H. R. 10,000, July 10, 1902.)

Each purchase of medicine will be considered as included in and covered by the letters of authorization issued in connection with assignments in the tropics. The foregoing order will supersede all orders of a similar character heretofore issued.

James Wilson
Secretary

SPECIAL ORDER:

The Committee on Buildings.

Special Order dated October 15, 1910, in relation to the Committee on Buildings, is hereby amended, and in lieu thereof, Mr. C. C. Clark, chief clerk of the department and custodian of buildings, Mr. Jos. A. Arnold, editor and chief of the Division of Publications, and Mr. Wm. A. Taylor, pomologist and assistant chief of the Bureau of Plant Industry, in addition to their regular duties, are hereby appointed and constituted a Committee to be designated and known as "The Committee on Buildings;" Mr. Clark to be the chairman of said Committee.

This Committee shall be subject to the orders of the Secretary of Agriculture and shall direct and supervise, in the City of Washington, the construction of new buildings for the Department of Agriculture, the remodeling of buildings of the Department already erected, the rental of all buildings, and the assignment of office rooms and space.

The said Committee shall also act as a Board of Awards to consider all bids appertaining to the construction of any new buildings or the remodeling of any old buildings belonging to the Department.

James Wilson

Secretary of Agriculture.

July 10, 1912.

(ATTENTION OF DIRECTOR OF ENTOMOLOGICAL SERVICE)

SPECIAL ORDER.

It is hereby ordered that emphasis of the Department of Agriculture traveling or stationed in Porto Rico, Hawaii, Guam, or elsewhere in the Tropics may be relinquished from the proper authorities for positions which may be needed in connection with the treatment or prevention of diseases in which they are exposed by reason of their assignment in the Tropics. This order applies only to those employees whose assignment is not fixed by law, and, therefore, not held in the contract position. See Department of the Comptroller General July 10, 1908 (XII, 25-26), and July 27, 1905 (No. 1).

Such purchase of supplies will be considered as included in and covered by the letter of authorization issued in connection with assignments in the Tropics. The foregoing order will supersede all orders of a similar character heretofore issued.

SPECIAL ORDER.

September 10, 1912.

EMPLOYEES INVITED TO ATTEND THE FIFTEENTH NATIONAL CONGRESS
OF HYGIENE AND DEMOGRAPHY.

The fifteenth National Congress of Hygiene and Demography will hold its sessions in Washington during September 1912 under the auspices of the Department of State. In connection therewith, the congress is holding an Exhibition on Health and its related subjects, which will be open from 9 A. M. to 10 P. M., September 16 to October 5, inclusive. The Exhibition building is situated at the corner of 17th and B. Streets, N. W. Admission to the Exhibition is free. During the Exhibition also a number of popular talks on hygiene illustrated with lantern slides and moving pictures will be given.

Inasmuch as it is thought that a general knowledge of health matters on the part of governmental employees tends greatly to increase the efficiency of the service, the Director of the Exhibition has requested the Department of Agriculture to bring the holding of this Exhibition to the attention of its employees, so that they may visit the Exhibition in large numbers and thus receive profitable and interesting information.

It is expected to open the Exhibition with appropriate ceremonies 8 o'clock on the evening of Monday, September 16, 1912.

(Death of Vice President Sherman.)

November 1, 1912.

AL ORDER.

TO THE CHIEFS OF BUREAUS, DIVISIONS, AND OFFICES:

The following Proclamation has been issued by the President:

"BY THE PRESIDENT OF THE UNITED STATES OF AMERICA"

"A PROCLAMATION"

"To the People of the United States:

James Schoolcraft Sherman, Vice President of the United States, died at his home in Utica, New York, at 9:42 o'clock on the evening of October 30th, 1912. In his death the Nation has lost one of its most illustrious citizens and one of its most efficient and faithful servants. Elected at an early age to the mayorship of his native city, the continued confidence of his community was shown by his election for ten terms as a Representative in the National Congress. As a legislator he at once took and retained high rank and displayed such attributes of up-right and wise statesmanship as to commend him to the people of the United States for the second highest office within their gift. As presiding officer of the Senate he won the respect and esteem of all for his fairness and impartiality. His private life was noble and good. His genial disposition and attractiveness of character endeared him to all whose privilege it was to know him. His devotion to the best interest of his native land will endear his memory to his fellow countrymen.

In respect to the memory, and the eminent and various services of this high official and patriotic public servant, I direct that on the day of the funeral the Executive Offices of the United States shall be closed and all posts and stations of the Army and Navy shall display the national flag at half-mast, and that the representatives of the United States in foreign countries shall pay appropriate tribute to the illustrious dead for a period of thirty days.

IN WITNESS WHEREOF I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the City of Washington this thirty-first day of October in the year of our Lord one thousand nine hundred and twelve and of the Independence of the United States the one hundred and thirty-seventh."

"WM. H. TAFT."

By the President:

Alvey A. Adee

Acting Secretary of State."

"(No. 1222.)"

This Proclamation is hereby published for the information and guidance of all concerned in this Department; and the offices and branches of the Department in Washington and outside of Washington shall be closed on Saturday, November 2, 1912.

Wm. H. Taft

Acting Secretary.
